What does Uu-a-thluk or "taking care of" the environment mean to you?

Images and statements created by children and youth about taking care of our precious environment.

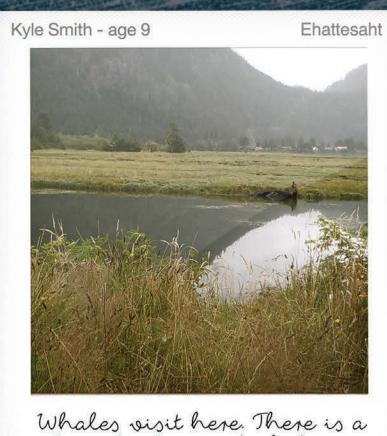

THEY ALSO HAVE PARENTS.

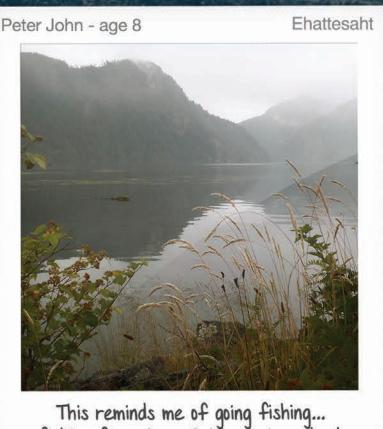

The ground is our family. Don't litter on our family

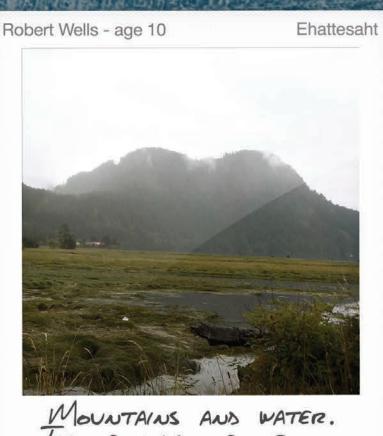

My grandmother uses it (moss).

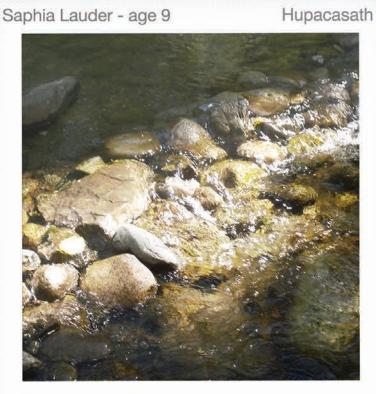

bunch of grass beds here.

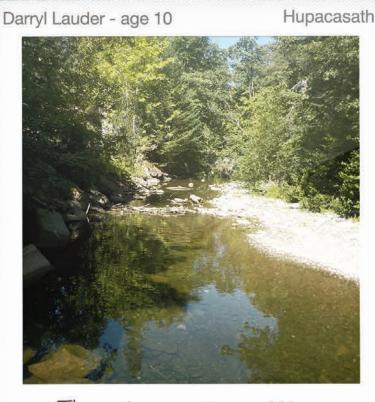

fishing for salmon. Salmon is important so we can eat supper.

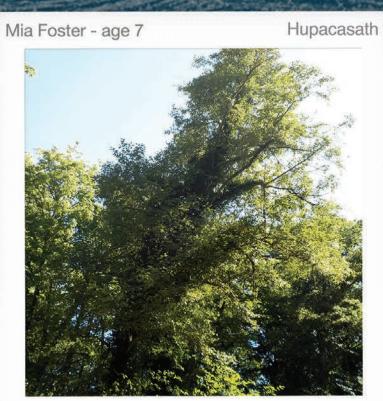

LT REMINDS ME OF OUR TRADITIONAL LANGUAGE.

This is a fish's home... where it swims. We should take care of it.

The stream is getting really small.

I love the world!

The cedar trees are my family.

Nothing eats the invasive species. It's our job to clean up after ourselves.

THE FOREST IS OUR FAMILY. THEY TAKE CARE OF US, THEY GIVE US OKYGEN.

Fish are important because you can eat them.

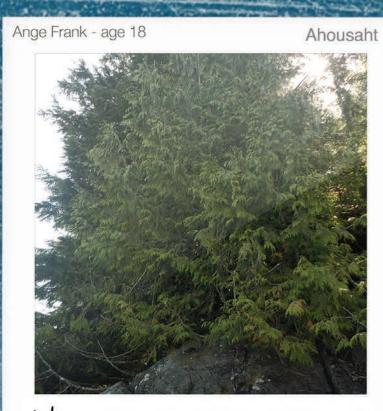

Hupacasath

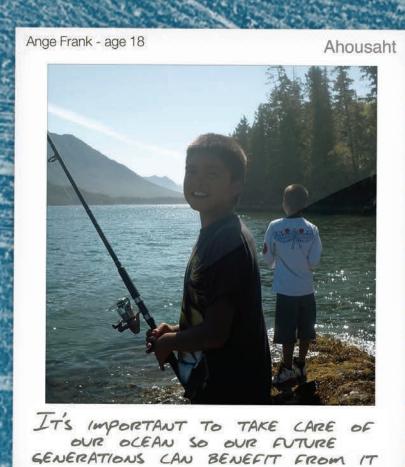

The garbage is hurting the fish. We can pick it up and throw it in the garbage instead.

IT'S BAD FOR THE FISH.

WE NEED TO TAKE CARE , OF OUR TREES BECAUSE THEY RE IMPORTANT TO THE PLANET.

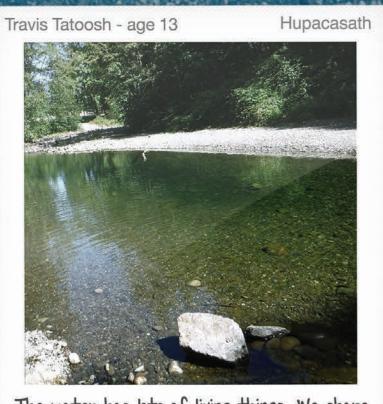

Ava Lauder - age 7

The trees are pretty. They help us breathe so they help us stay alive.

ENVIRONMENT.

The water has lots of living things. We share the water with plants and insects. We should take care of it.
